Antigneous Instruction Manual

Written by Lexzach

What is this?

Antigneous is an affordable, open-source fire alarm control panel (FACP). This is targeted towards hobbyists or areas that do not have the privilege of having an fire alarm system from a name-brand company.

Disclaimer!

Antigneous is **not** officially approved for use as a fire alarm system. Although the creator has done everything they can to make sure the panel will work with zero issues, this cannot be guaranteed without extensive testing by official parties. If you do not accept the inherent risk of using a non-approved fire alarm system. DO NOT USE THIS.
